

## **WELCOME TO THE NEW XPLORNET.COM**

For Immediate Release

May 15, 2008

Woodstock, NB. – On Thursday May 15, Xplornet launched its new web site which features a new look, a cleaner design, bolder images and easier navigation.

To achieve this new look, we've updated our color scheme, created rotating news headlines and repositioned our navigation bar. These modifications fashion a creative design that provides better readability, increased functionality and an overall fresh, new look.

Our website has adapted to present information and ideas in an innovative way as to provide Canadians with accessible and accurate information about Xplornet's broadband services.

We hope you enjoy the new web site.
