

Xplornet Email on an Apple iOS Device using the Outlook App

Adding a new email account to your iOS device to use with the Outlook app:

1. From your Home Screen or the appropriate folder, tap the **Outlook** icon

2. First time using Outlook for iOS? Just tap **Get Started**.
 - a. If not, tap the **menu icon** the upper left corner (3 horizontal lines).

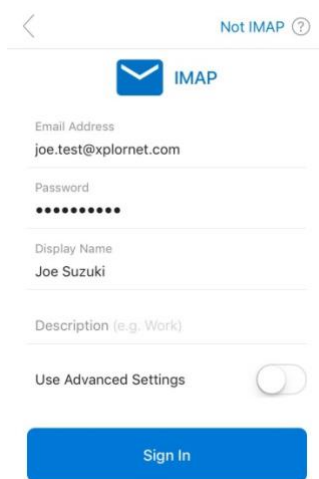

- b. Tap **Settings** at the bottom left (gear icon) > **Add Account** > **Add Email Account**.

3. Type your **full email address**, then tap **Add Account**

4. Do **not** tap "Not IMAP", as **IMAP** is recommended.

5. Enter your email **Password** and a **Display Name**, then tap **Sign In**

Your email account is now ready for use in Outlook on your iOS device.

To Sync your [Webmail](#) Address Book Contacts to your iOS device

1. From your Home Screen or the appropriate folder, select the **Settings** icon
2. Scroll down and choose **Accounts & Passwords**

3. Under **Accounts**, choose **Add Account**

4. Choose **Other**

5. Under **Contacts**, select **Add CardDAV Account**

6. For **Server** enter **mail.xplornet.com**, or **mail.xplornet.ca** (if your email address ends in @xplornet.ca, @ciaccess.com, @southkent.net or @talkwireless.ca)

7. For **User Name** enter your **full email address**

8. For **Password** enter your **email password**

9. Enter whatever you like in the **Description** field. It will be auto-populated with what was entered in the Server field

10. Select **Next**

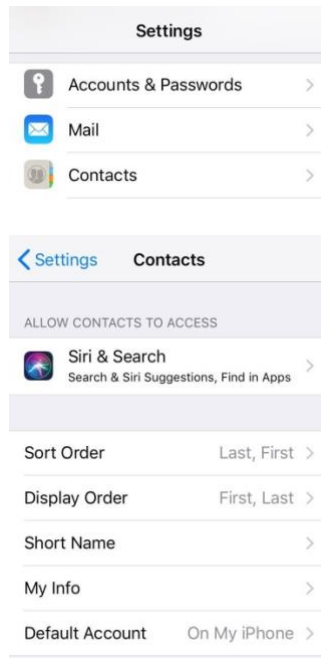

11. If it asks you “**What would you like to do with existing local contacts**” select **Keep on My [iOS device]**

If you wish to make your webmail Contacts as the **Default Contacts** on your iOS device, such that when you add a new contact on your iOS device, it will save it in your webmail Contacts too, do the following:

1. From your Home Screen or the appropriate folder, select the **Settings** icon
2. Scroll down and choose **Contacts**

3. Select **Default Account**

4. Select your **Contacts** account (either by the Description you have for it, or “My CardDAV Account” if you left the Description blank)

To Sync your [Webmail](#) Calendar to your iOS device

1. From your Home Screen or the appropriate folder, select the **Settings** icon
2. Scroll down and choose **Accounts & Passwords**

3. Under **Accounts**, choose **Add Account**
4. Choose **Other**

5. Under **Calendars** select **Add CalDAV Account**

6. For **Server** enter **mail.xplornet.com**, or **mail.xplornet.ca** (if your email address ends in @xplornet.ca, @ciaccess.com, @southkent.net or @talkwireless.ca)

7. For **User Name** enter your **full email address**
8. For **Password** enter your **email password**
9. Enter whatever you like in the **Description** field. It will be auto-populated with what was entered in the Server field
10. Select **Next**

11. Select **Save**

Changing your Email Password

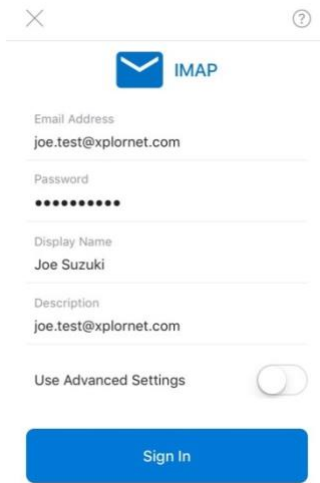

If you **changed your email password** in [webmail](#), you will need to change it in Outlook and Settings to match the new password.

For your email account in the Outlook app:

Outlook for iOS may detect a sync error and ask you to log in again.

1. Tap **Login**

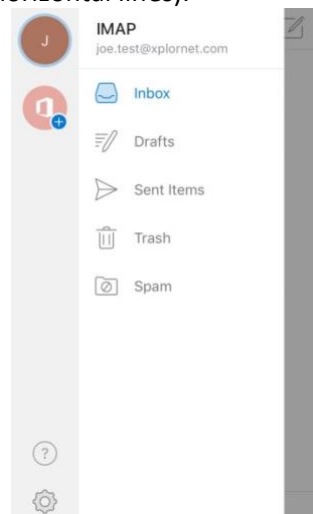

2. Enter the new **Password** you set in webmail and then tap **Sign In**

If Outlook doesn't prompt you, follow these steps instead:

1. From your Home Screen or the appropriate folder, tap the **Outlook** icon

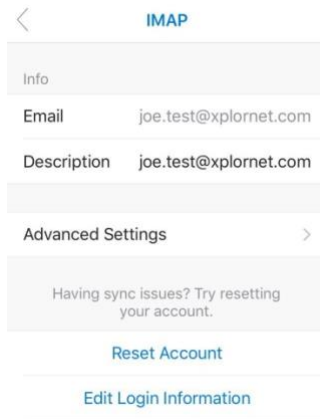

2. Tap the **menu icon** the upper left corner (3 horizontal lines).

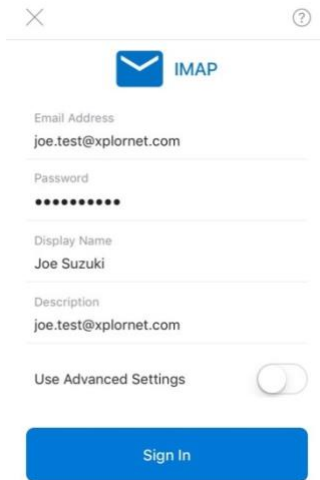

3. Tap **Settings** at the bottom left (gear icon)

4. Tap the **Account**

5. Tap **Edit Login Information**

6. Enter the new **Password** you set in webmail and then tap **Sign In**

For your **sync'd Webmail Contacts**:

1. From your Home Screen or the appropriate folder, select the **Settings** icon
2. Scroll down and choose **Accounts & Passwords**

3. Under **Accounts**, select your **Contacts** account (either by the Description you have for it or “My CardDAV Account” if you left the Description blank)

4. Enter the new **Password** you set in webmail and then select **Done**

a. If you entered the password incorrectly, it will give this error:

b. Select **Cancel** and then **OK**, and try entering the correct password again

5. It will return to **Accounts & Passwords** once changed successfully

For your **sync'd Webmail Calendar**:

1. From your Home Screen or the appropriate folder, select the **Settings** icon
2. Scroll down and choose **Accounts & Passwords**

3. Under **Accounts**, select your **Calendar** (or **Calendar, Reminders**) account (either by the Description you have for it or "My CalDAV Account" if you left the Description blank)

4. Select your **Account** under **CALDAV**

5. Enter the new **Password** you set in webmail and then select **Done**

a. If you entered the password incorrectly, it will give this error:

b. Select **Cancel** and then **OK**, and try entering the correct password again

6. It will return to **CALDAV** screen once changed successfully

Your password is now changed to match what you set it to in webmail.
